Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A Computer Science student preparing for viva examinations, presentations, and technical interviews.	Explain technical concepts clearly and confidently	I don't know whether my explanation is conceptually accurate or complete	Existing learning platforms only test written knowledge and don't evaluate spoken conceptual understanding.	Uncertain, anxious, and less confident before interviews and viva exams.
PS-2	A Faculty member or Instructor.	Assess every student's conceptual understandin g fairly and efficiently	Manually evaluating each student's explanation takes significant time and may lead to inconsistent feedback.	There is no AIpowered system that automatically analyzes speech, conceptual accuracy, and communication quality together.	Overloaded and unable to provide detailed, personalized feedback to every student.
