Project Name	**Voice Based Concept Understanding Analyser**
Maximum Marks	4 Marks

Customer Journey Map

Phase of Journey	**Stage 1: Identifying a Knowledge Gap**	**Stage 2: AI-Based Concept Evaluation**	**Stage 3: Learning & Continuous Improvement**
Actions (What does the customer do?)	• Encounters difficulty understanding a technical concept. • Practices explaining the concept aloud. • Opens the VBCUA application.	• Records or uploads a voice explanation. • Enters the reference answer/topic. • Clicks Evaluate. • Waits for AI analysis	• Reviews semantic similarity score. • Reads AI-generated feedback. • Downloads PDF report. • Practices again using the suggestions.
Touchpoints (What part of the service do they interact with?)	• Learning materials (books, slides, videos). • Streamlit Home Page.	• Audio Recorder / Upload Module. • FastAPI Backend. • Whisper Speech-to-Text. • Gemini AI Evaluation Engine.	• Dashboard. • Evaluation Results Page. • PDF Report. • Previous Evaluation History.
Customer Thoughts (What is the customer thinking?)	• "Do I really understand this topic?" • "How can I prepare for my viva?" • "I need objective feedback."	• "Will AI understand my explanation?" • "Did I miss any important concepts?" • "How accurate is my answer?"	• "Now I know where I need improvement." • "I'll practice again and improve my score." • "This feedback is useful for interviews."
Customer Feelings (What is the customer feeling?)	• Curious. • Confused. • Slightly anxious.	• Hopeful. • Interested. • Excited to receive feedback.	• Confident. • Motivated.

			• Better prepared for exams and interviews.
Process Ownership (Who is responsible at this stage?)	• Student	• Student + VBCUA AI System (Whisper, Sentence-BERT, Librosa, Gemini)	• Student with AI-generated recommendations and progress tracking
Opportunities (How can this stage be improved?)	• Recommend relevant study materials. • Suggest frequently asked viva questions. • Provide concept summaries.	• Reduce AI response time. • Support multiple languages. • Allow real-time voice recording with live transcription.	• Show progress graphs. • Recommend personalized practice questions. • Enable comparison of previous evaluations and learning trends.
